

This is an invitation to change everything.

In September, as world leaders gather in NYC to discuss reducing global warming pollution, we are coming together to call for climate justice. In Oregon, we'll stand with people across the country to show our leaders we support strong climate action and freedom from fossil fuels.

With our future at stake and the whole world watching, we'll take a stand to bend the course of history. We'll take to the streets to demand the world we know is within our reach: a world with an economy that works for people and the planet; a world safe from the ravages of climate change; a world with good jobs, clean air and water, and healthy communities.

To change everything, we need everyone.
