

## Securing the right to a stable climate and a healthy atmosphere for all present and future generations

With the support of **Our Children's Trust**, 21 young Americans filed their constitutional climate lawsuit, called *Juliana v. United States*, against the U.S. government in 2015. They assert that, through the government's affirmative actions that cause climate change, it has violated the youngest generation's constitutional rights to life, liberty, and property, as well as failed to protect essential public trust resources.

### Are You a Young Person?

Our YouCAN (Youth Climate Action Now) program trains and supports youth to engage in civic participation within their local communities, advocating for legal protection for the atmosphere in the form of science-based emission reduction targets. Youth participate directly in local government and petition City Councils for locally tailored climate recovery planning, testify in public meetings of City Councils, and advocate at work sessions with local government leaders.

Join Earth Guardians ([www.earthguardians.org](http://www.earthguardians.org)), an organization of young leaders who are fighting for our futures across the globe. Earth. Guardians is the organizational plaintiff in our #youthvgov case.
